

Technical data sheet

TH610 (V600)

Thinner/cleaner for tools and non-absorbent substrates

Areas of application

- System thinner for indicated products
- Tool cleaning
- Cleaning non-absorbent substrates

See primer recommendations:

FRANKOSIL® (TL028)

REVOPUR® (TL35)

FRANKOLON® (TL006/TL007)

Properties

- Solvent mixture
- Colour shade: Colourless

Usage

Depending on how it is used

Delivery form

- 3 l Tin canister
- 1 l Tin bottle

Storage

Store in original container at +5°C to +30°C in a dry place.

Avoid containers coming into contact with direct sunlight, even on the construction site.

Can be stored for 36 months after production.

Processing

Application

The thinner is added to the system products according to the prescribed quantity and stirred in thoroughly.

Pour the cleaner into a resealable bucket and clean tools in there. After you've cleaned them, close the container again so that the cleaner doesn't evaporate. To clean surfaces, carefully apply the cleaner to a cleaning cloth and clean the surfaces thoroughly.

Tools and aids

Personal protective equipment

Please consult the product safety data sheet for information on personal protective equipment.

General information

The product must not be mixed and processed with other substances not belonging to the system. No materials other

Additional product

than those specified by FRANKEN SYSTEMS GmbH are permitted to be used.

Miscellaneous

It's to the best of our knowledge that we've provided the above information as well as our technical advice on applications, whether verbal, in writing or by means of tests. However, this information shall only be regarded as non-binding, which also applies to any property rights of third parties. The advice does not release you from examining our current advisory notes yourself (our safety data sheets and technical information in particular) and our products with regard to their suitability for the intended processes and purposes. The application, use and processing of our products as well as the intended use selected by you on the basis of our technical application-specific advice are beyond our control and are therefore exclusively your responsibility. The sale of our products is subject to our current General Terms and Conditions of Sale and Delivery. Warnings on the product labels must be observed. The latest version of the applicable documents shall be used. Please check that the documents used are up-to-date and/or request an up-to-date document before each application.
