# REVOPUR® Glasperlenmischung

Glass bead mix

## Areas of application

REVOPUR® Glasperlenmischung is a high-quality glass bead mix for the decorative design of surfaces.

## Features

- Glass beads
- UV-resistant

## Coverage

approx. 25g/m<sup>2</sup> to 35g/m<sup>2</sup>

## Delivery form

- 10 x 250 g in plastic container

## Storage

Store unopened and in a dry place.

## Processing

### Application

The glass bead mix is added as an additive to the system component after the resin and hardener have been mixed and stirred in evenly. To avoid settling, the mixture must be stirred regularly.

## Tools and aids

## General information

The product must not be mixed and processed with other substances not belonging to the system. No materials other than those specified by FRANKEN SYSTEMS GmbH are permitted to be used.

## Miscellaneous

It's to the best of our knowledge that we've provided the above information as well as our technical advice on applications, whether verbal, in writing or by means of tests. However, this information shall only be regarded as non-binding, which also applies to any property rights of third parties. The advice does not release you from examining our current advisory notes yourself (our safety data sheets and technical information in particular) and our products with regard to their suitability for the intended processes and purposes. The application, use and processing of our products as well as the intended use selected by you on the basis of our technical application-specific advice are beyond our control and are therefore exclusively your
